

TUMOR

Progression & Therapeutic Resistance

October 22-24, 2006 Baltimore, Maryland

Keynote Speaker:

Bert Vogelstein, M.D.
Johns Hopkins School of Medicine
Howard Hughes Medical Institute

Sessions Include:

Cancer Genetics
Epigenomics in Cancer
Signaling Pathways and Therapeutic Resistance
Tumor-Stromal Interactions & Tumor Microenvironment
Cancer Stem Cells
MicroRNAs in Cancer Pathogenesis
Models of Human Cancer Progression Cancer Proteomics
Molecular Imaging of Cancer
Mechanism-Driven Therapeutics

Informal NCI Round-Table Discussion

Abstract Deadline:

September 22, 2006

A few will be chosen for oral presentations

Presenters:

Nabeel Bardeesy, MGH Cancer Ctr., Harvard Univ.
Mikhail Blagosklonny, Ordway Institute
Angelika Burger, University of Maryland
George A. Calin, Ohio State University
Judy Campisi, Berkeley National Lab
Lynda Chin, DFCI, Harvard University
Arul Chinnaiyan, University of Michigan
Lewis Chodosh, University of Pennsylvania
Michael F. Clarke, Stanford University
Christopher H. Contag, Stanford University
Chi Van Dang, Johns Hopkins University
Wafik El-Deiry, University of Pennsylvania
Gerard Evan, UC San Francisco
Eric Fearon, University of Michigan
Samir Hanash, Fred Hutchinson Cancer Research Ctr.
Mary Hendrix, Northwestern University
Mien-Chie Hung, MD Anderson Cancer Center
Raghu Kalluri, BIDMC, Harvard University
Scott E. Kern, Johns Hopkins University
Timothy MacLachlan, Genzyme
Sandy Markowitz, Case Western Reserve University
David McConkey, MD Anderson Cancer Center
Spyro Mousas, Tgen
Ben Neel, BIDMC, Harvard University
William G. Nelson, Johns Hopkins University
Nicholas Nicolaides, Morphotek Inc.
Ramon E. Parsons, Columbia University
Kornelia Polyak, DFCI, Harvard University
Vivek Rangnekar, UT Southwestern
E. Prem Reddy, Fels Institute
William Sellers, Novartis Inst. for Biomedical Research
Jeffrey Settleman, MGH, Harvard University
Frank Slack, Yale University
Edward F. Srouf, Indiana Univ. School of Medicine
Sara Sukumar, Johns Hopkins University
Victor Velculescu, Johns Hopkins University
Mark Wade, Salk Institute
Todd Waldman, Georgetown University
Richard F. Wooster, GlaxoSmithKline
Gen Sheng Wu, Karmanos Cancer Center
